For Immediate Release

Tactical Rehabilitation Announces Transition to 100% ESOP!

Employees at Tactical Rehabilitation recently learned they now own the Company! Tactical Rehabilitation has transitioned to a 100% employee owned.

An Employee Stock Ownership Plan (ESOP) is a retirement benefit that holds company stock. There are many benefits of working for an employee-owned organization. Employee-owned companies usually attract highly productive employees and experience increased retention amongst staff, all while maintaining business continuity. ESOP's boost employee engagement because the employee owners share in the mutual success of the company. Other benefits of becoming an ESOP include more job stability, higher job satisfaction and workplace culture.

Tactical Rehabilitation is a full service durable medical equipment company whose mission is to serve those who serve our country. Tactical Rehabilitation provides the highest quality products and the highest level of service to active-duty service members, veterans, and their families. Tactical Rehabilitation staff is trained to provide the highest quality care and fit for patients and to be a resource for providers.

"Our mission has a heart to serve others," and that "Includes the lives of our employees and their families." The decision to transition to an employee-owned organization allows for Tactical Rehabilitation's operations to continue and preserve the company's legacy, by sustaining the level of care for the patients we serve.

Kevin MacRitchie will remain as the company's president and all other members of the company's leadership team will stay in their roles as well.

Tactical Rehabilitation is a full service DME company whose mission is to serve those who serve our country. We provide the highest quality products and the highest level of service to active duty service members, veterans and their families. All of our products are battle tested having been used by service members deployed throughout the world. Our office staff is trained to provide the highest quality care and fit for patients and to be a resource for providers.
