

Provider Product Education FREE CE

In-Service Training & Muscular Skeletal Continuing Education (CE)

Tactical Rehabilitation provides high-quality Continuing Education (CE) opportunities through partnerships with accredited CE providers to support military readiness and improved patient outcomes.

Annual education/certification requirements, professional development, and provider competency are an integral part of military medicine.

CE availability is dependent on course content and discipline. Please confirm availability of current offerings.

Elevating Military & Clinical Readiness Through Education

- On-site and virtual in-service training
- Muscular Skeletal continuing education (CE)
- Evidence-based, clinically applicable instruction
- Hands-on product education and demonstration

Benefits to Your Facility

- Supports mandatory education and readiness requirements
- Reduces administrative workload for clinical leadership
- Enhances provider engagement and clinical consistency
- Strengthens continuity of care and referral alignment
